ROOFING **NEWS**

Great start to 2025

With the first quarter of 2025 complete, we are pleased to have made such a strong start.

In this newsletter:

- Newcomer - Jack Norris
- New job alert
- 2025 project progress
- Accreditations
- Going green & team building

NEW RECRUIT

Meet Jack

Jack Norris has joined EPR as a Trainee Flat Roof Estimator. Customers of Elliotts Builders Merchant, may recognise Jack from the Bishop's Waltham Branch.

Jack has got off to a great start and has been on site visits to learn the various systems we undertake.

**NEW PROJECT**

City and Country, Midhurst

3 phases
over 3 years

Pitched
Roof

Flat
Roof

With Elliotts Premier Roofing having been involved in this project over the years, it's nice to have received the order for the next 3 phases spanning the next 3 years. The new phases will have a mix of pitched roofing and flat roofing, showcasing Soprema products like hot melt, single ply, and built-up felt using tapered foam glass.

Our relationship with the client has given us the time to come up with a comprehensive system to undertake these works.

Securing the next phase of such a prestigious project in Midhurst for a valued client during the first quarter of 2025 is fantastic news for everyone at Elliotts Premier Roofing. A big well done to our estimating team for their hard work and dedication in making this happen. This project will give us the opportunity to showcase our expertise across six of our specialist roofing disciplines.

We'll be installing hotmelt systems to the podium, high-performance felt to the terraces, and single ply membrane to the main roof areas, with Soprema as our chosen waterproofing system supplier. The pitched roof areas will feature Rockwool slab insulation, finished with Lifestyle Wovern handmade plain tiles. Additionally, the project includes tile hanging on the building's exterior and bespoke leadwork throughout.

Set within such stunning surroundings, this is shaping up to be a truly impressive build - and we can't wait to see it all come together.

Sam Starmore
Operations Director

2025 **PROGRESS**

A great start to 2025, but here are just a few of our projects we are currently busy working on:

1. Bournemouth and Poole Refurbishment / New Build for Kier Construction

2. Haslar Hospital for Galliford Try

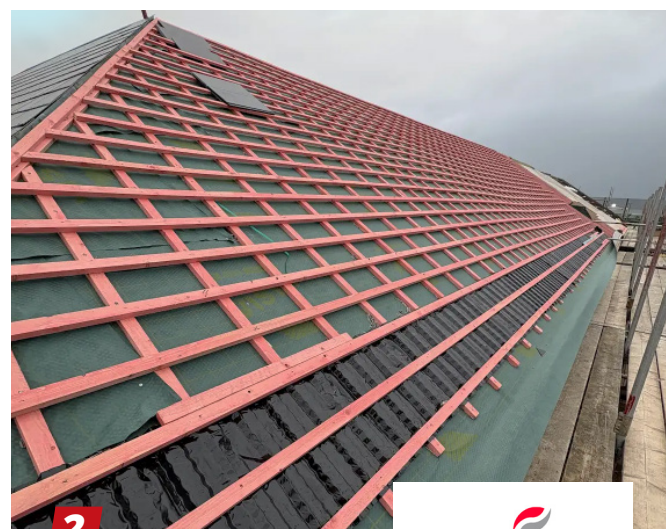

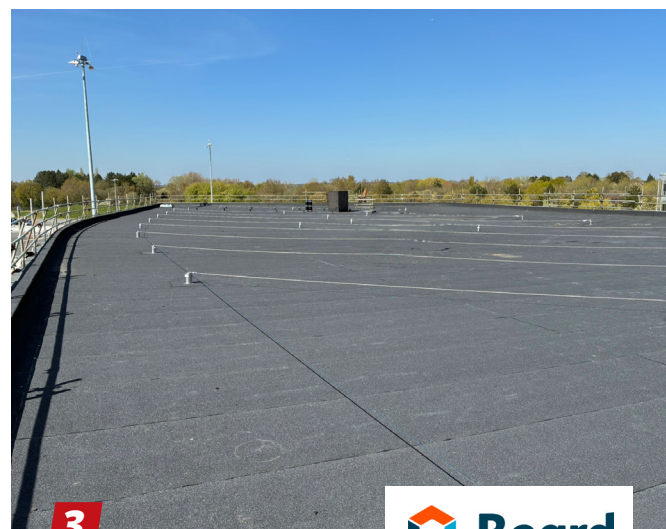

3. Farnborough Airport for E W Beard Construction

Keep an eye out for issue 3, we have some more great projects to show you.

We're here to
help you build

THINKING OF GOING **GREEN?**

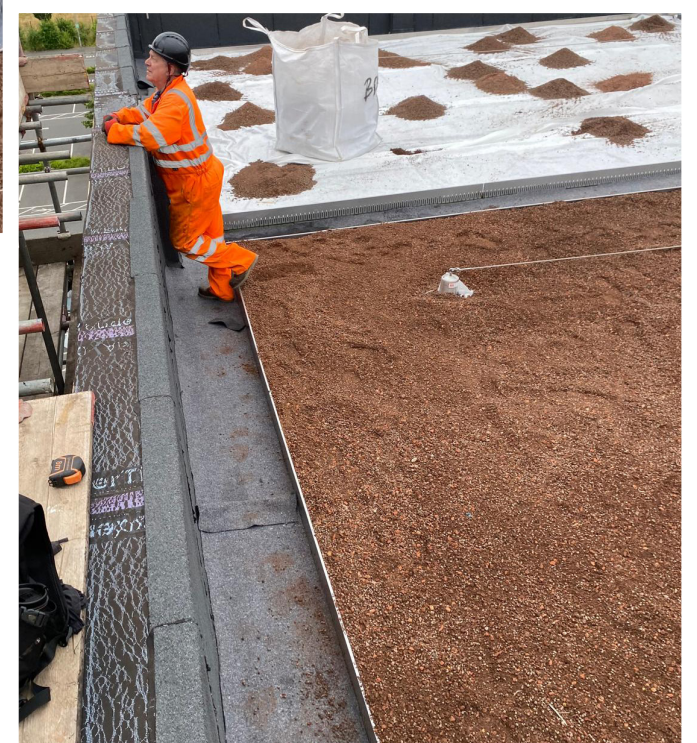

Green Roof install, great work from our supply chain.

The momentum to specify 'green' is now growing in the UK, with building owners looking to be environmentally friendly and architects keen to provide a 'green' design edge to industrial and commercial projects, and we can certainly help with that.

Chat to us about going green:

BIT OF **TEAM BUILDING**

A casual football get together with one of our suppliers.

Bauder Golf Day – the second event is coming up in June 2025. The guys are looking forward to a second round (or a long walk for some).
